Our Story...

Empress Skin was founded with a mission to combine science-backed treatments and personalised care, we opened our doors to bring a new level of skin and scalp health.

Our clinic is built on trust, expertise, and a deep understanding of the unique needs of every individual. We proudly offer advanced, non-invasive treatments like FDA-approved HydraFacials and SkinPen Precision microneedling, the first FDA-cleared device of its kind, trusted by the NHS to treat scars in burn victims. These results-driven technologies are clinically proven to improve skin texture, reduce fine lines, and diminish acne scarring safely and effectively.

We also offer Lymphatic Massages, Japanese Head Spa and the HydraFacial Keravive for hair restoration, designed to cleanse, nourish, and revitalise the scalp for healthier, fuller-looking hair.
